ARINZE JONATHAN EDEH

Cloud & DevOps Engineer | Platform & Infrastructure Engineering | Systems Administration

Nigeria (GMT+1) | +234 90 3342 1037 | arinzeedeh.dev@gmail.com | linkedin.com/in/arinze-edeh | github.com/arinze-edeh | Remote, time zone flexible

CORE COMPETENCIES

AWS | Azure | Kubernetes | Terraform | Jenkins | Docker | Ansible | CI/CD | GitHub Actions | Infrastructure as Code | Linux Administration | Cloud Security & IAM | Monitoring & Observability | PowerShell & Bash Scripting

PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with 200+ documented infrastructure implementations across AWS, Azure, and Kubernetes, and a top 10 global ranking on KodeKloud's Senior DevOps Engineer leaderboard. Builds and automates production-style CI/CD pipelines, containerized environments, and multi-cloud infrastructure, with a disciplined documentation practice. Microsoft Certified: Azure Administrator Associate (AZ-104). Former AWS Cloud Instructor. Open to remote work and relocation, available full time, with flexibility for part-time or contract engagements.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, Lambda, ECS, EKS, RDS, DynamoDB, SQS/SNS, CloudFormation, CloudWatch, KMS, ECR, ALB) | Azure (VMs, VNets, AKS, ACR, Blob Storage, Azure SQL, Event Hubs, Key Vault, App Gateway, ARM Templates)

DevOps, IaC & Orchestration: Jenkins | GitHub Actions | Docker/Compose | Ansible | Terraform | Kubernetes (k3s, EKS, AKS): rolling updates, RBAC, PersistentVolumes, Helm

Systems, Security & Monitoring: Linux (RHEL, Ubuntu) & Windows Server (AD, GPO, WSUS) | TCP/IP, DNS, VPC/VNet, NSGs | IAM, KMS, Key Vault, SSL/TLS, zero trust | CloudWatch, Prometheus, Zabbix, Grafana

PROFESSIONAL EXPERIENCE

DevOps Intern | Davine Technologies | Remote | Jul 2026 to Present

- Automated server provisioning and cloud infrastructure with modular Terraform and Ansible playbooks, eliminating configuration drift across environments.
- Engineered multistage Jenkins CI/CD pipelines integrated with GitHub webhooks, automating build, test, and deploy stages.
- Containerized workloads with Docker and Docker Compose; scripted Bash utilities for backups, log rotation, and health reporting via Cron.

IT Systems & Cloud Support Specialist | Bee Tee Haulage and Logistics | Lagos, Nigeria (Hybrid) | Sep 2024 to Oct 2025

- Delivered Tier 1/2 support to 50+ users across Windows, Microsoft 365, and networking, achieving 95% first-call resolution and 95% SLA compliance.
- Managed AWS environment tasks, including IAM reviews, S3 access audits, and EC2 monitoring, reducing misconfiguration incidents by 20%.
- Authored 50+ SOPs and troubleshooting guides, boosting resolution efficiency by 40%.

AWS Cloud Practitioner Instructor | Skill Mountain Academy | Abuja, Nigeria (Hybrid) | Dec 2021 to Jul 2024

- Designed and delivered AWS curriculum (EC2, S3, IAM, VPC, RDS, Lambda, CloudFront) with hands-on labs across multiple cohorts.
- Translated cloud concepts, including shared responsibility, least privilege, and billing, into accessible frameworks for non-technical audiences.

INDEPENDENT PRACTICE & PROJECTS

Self-directed, production-style infrastructure engineering across AWS, Azure, and Kubernetes (Dec 2025 to Jun 2026), with 200+ implementations documented to postmortem standards: problem, solution, implementation, validation, errors, and lessons learned.

Portfolio: github.com/arinzeedeh/cloud-infrastructure-devops-labs

- Built a production style multi cloud CI/CD platform: Terraform provisioned AWS infrastructure (VPC, EKS, IAM, DynamoDB, CloudWatch) with zero manual console configuration; Jenkins multistage pipelines with parameterized builds, distributed agents, RBAC, and automated rollback on failed health checks.
- Orchestrated Dockerized microservices on EKS with rolling updates, PersistentVolumes, Secrets management, QoS enforcement, KMS encryption at rest, and zero trust network segmentation across VPCs.
- Delivered 40+ AWS and Azure services across compute, storage, networking, databases, and security (EC2, EKS, Lambda, RDS, VNet peering, ACR/AKS, Key Vault, ARM Templates), plus Kubernetes fault diagnosis, Helm deployments, and Jenkins/GitHub Actions/Ansible/Terraform CI/CD pipelines.

CERTIFICATIONS

Certified: Microsoft Certified: Azure Administrator Associate (AZ-104), 2026 | IBM Cybersecurity Analyst Professional Certificate, Coursera, 2026 | Google IT Support Professional Certificate, 2025 | Microsoft Azure Fundamentals (AZ-900), 2021 | AWS Certified Cloud Practitioner, 2021

Recognition: Top 10 Global Ranking, KodeKloud Senior DevOps Engineer Leaderboard, 2025 to present | 100+ day GitHub contribution streak

ADDITIONAL TRAINING

AWS Certified Security, Specialty (SCS-C02), Coursera specialization | Azure Security Engineer Associate (AZ-500), Coursera specialization | Azure DevOps Engineer Expert (AZ-400), National Electronic Media Institute of South Africa (NEMISA).

EDUCATION

B.Sc. Computer Science | University of the People, California, USA (Online) | CGPA: 4.0 / 4.0 | Expected Dec 2026
